Global Employee Update allows for updating pay rates, benefits, deductions, etc, easily for a group or all employees. Preview the suggested change 25 employees at a time, accept or override the proposed change on an individual employee basis.

Enhanced G/L Interface allows for summarized or detailed G/L transactions to be exported.

Internet Employee Stubs can be posted on an Easypay hosted web site. Employees can view or print their current pay stub and any stub issued in the last 18 months.
